

# PREPARE 2026

## ART SHOWCASE

### ***"Future Ready Schools"***

This year's theme, "Future Ready Schools," invites young artists to dream big about what schools, culture, and security will look like in the future.

Use your artwork to depict futuristic classrooms, innovative safety tools, redesigned school spaces, new collaborative methods for students and teachers, or creative technologies that promote safety and support for everyone. You can also explore the evolution of human connection and how trusted adults help to shape strong school communities.

Be bold, curious, and inventive as you show us what a Future Ready School looks like through your eyes.

**Deadline: May 31, 2026**
