

Lockdown Drill Impact Surveys

Information collected from surveys AFTER a lockdown DRILL occurs is being used to better understand the effectiveness and impact of lockdown drills on students, parents, and school staff.

Student, parent, and school staff surveys are brief and **anonymous**. Information provided will only be connected to the school where the lockdown drill occurred. No identifiable information about the person completing the survey will be collected.

Grades 6-12 Student

This survey will collect feedback about the student experience after a lockdown drill occurs at their school.

Parent

This survey will collect feedback on K-12 parent experience after a lockdown drill occurs. It is also designed for parents of K-5 students to inform K-5 student experiences.

bit.ly/LockdownParent

School Staff

This survey will inform emergency preparedness efforts in Maryland schools while gathering insight on the emotional impact of lockdown drills.
