GRANT OVERVIEW

The Maryland Safe to Learn Act of 2018 (Senate Bill 1265, Chapter 30) became law on June 1, 2018. It established the Safe Schools Fund, and ushered in a new approach to school safety and security for Maryland's public schools. The purpose of the Fund is to provide grants to local school systems to enhance school safety. MCSS administers the Fund on behalf of the School Safety Subcabinet, which awards the grants from the Fund. The Safe to Learn Act also established the School Safety Subcabinet Advisory Board, which advises and assists the Subcabinet and agency with fulfilling the statutory duties.

The Safe Schools Fund Grant (SSFG) is one of three grants being offered by MCSS under the Maryland Safe to Learn Act of 2018.

SAFE SCHOOLS FUND GRANT – FY2024

The Governor has appropriated \$600,000 in FY2024 to the Safe Schools Fund for issuance to local school systems in the areas enumerated at [Md. Code Ann., Education Art. §7-1512](#). The Subcabinet shall review and approve all applications for the Safe Schools Fund Grant prior to issuance. The Subcabinet and MCSS reserve the right to request additional information from applicants related to project descriptions, use of the funds, and budget submissions. MCSS encourages applicants to include relevant support documentations such as quotes, statements of work, etc. when available; in order to enhance the review process and avoid any delays.

PURPOSE OF THE GRANT

The purpose of this Safe Schools Fund Grant is to provide funding for school safety and security related matters as described under [Md. Code Ann., Educ. Art. §7-1512](#). The grant funds are to be applied toward the cost of school safety-related projects and services as outlined below:

1. Conducting training for students and school personnel on de-escalation of situations and identifying and reporting behaviors of concern.

Grant funds may be used to train students and staff on the proper use of de-escalation strategies/measures in properly addressing and managing student behavior, the conflict cycle and preventative measures, the development of meaningful relationships, how to recognize signs of escalation, and de-escalation tips to improve the climate and culture of the school and school community. Training could also include knowledge of trauma informed care and use of trauma informed strategies to de-escalate classroom and school conflict.

This training may be provided by consultants and/or subject matter experts in various formats to include, but not limited to: in-person training, webinars, seminars, discussion- and operational-based exercises, or use of technology-based training.

Training related to behaviors of concern may include the topics of self-harm, harm to others, expression of hopelessness, drug use, suicidal gestures, and known gang activity.

2. Conducting training of assessment teams.

Grant funds may be used to train administrators, school staff, support staff, and school resource officers to identify, properly respond to, and report threats or behaviors of concern that may pose a threat to the safety of an individual attending or working in a public school. MCSS recommends using the SSFG for Incident Command Systems (ICS) training or the National Incident Management System (NIMS) training.

In addition, grant funds may be used to train students to identify, and encourage students to report behaviors of concern exhibited by their peers or others that may pose a threat to the safety of an individual attending or working in a public school, including sharing thoughts about or plans for engaging in violence at the school. Grant funds may also be used to purchase training materials.

This training may be provided by consultants and/or subject matter experts in various formats to include, but not limited to: in-person training, webinars, seminars, discussion- and operational-based exercises, or use of technology-based training.

3. Conducting School Safety Evaluations.

Grant funds may be used to train school safety evaluation teams regarding the various aspects and use of the school safety evaluation tool, as well as the use of technology, software, and apps to conduct the safety evaluations. In addition, grant funds may be used to employ school safety consultants and/or subject matter experts to conduct the school safety evaluations and/or assess the outcomes of the evaluations.

4. Establishing Formal and Anonymous Mechanisms for Reporting Safety Concerns.

Grant funds may be used to develop and establish formal and anonymous mechanisms, policies, procedures, and processes for reporting safety concerns as well as the use of technology, software, and apps to support the reporting process. In addition, grant funds may be used to train administrators, school staff, support staff, students, parents, school resource officers and community members to identify and properly report safety concerns to the appropriate parties. However, a statewide Safe Schools Maryland Anonymous Reporting Systems has been established by the State and may be utilized by any public or private K-12 school statewide.

5. Reimbursing local law enforcement agencies for school resource officer training provided by the Center.

School Resource Officer training to be provided by the Center will be at no expense to local law enforcement agencies. School Resource Officers may register for any training provided by the Center, which is applicable to their roles that is offered at no expense. The SSFG shall not be used to pay for travel or hotel accommodations.

6. Enrolling school security employees in training provided by the Center.

School security employee training to be provided by the Center will be at no expense to local school systems. School security employees may register for any training provided by the Center, which is applicable to their roles that is offered at no expense. The SSFG shall not be used to pay for travel or hotel accommodations.

7. Developing plans to deliver school-based behavioral health and other wraparound services to students who exhibit behaviors of concern, including establishing systems to maximize external funding for services.

Grant funds may be used to develop or adopt programs, practices, or strategies that address the behavioral needs of students that may pose a risk of self-harm or harm to others. Behaviors of concern may include expressions of hopelessness, drug use, suicidal gestures or statements, and gang activity.

Funds awarded under this section may also be used to provide wraparound services to students and their families including mentoring, tutoring, child care services, housing referrals, transportation, crisis intervention, substance abuse prevention and treatment, legal aid, academic counseling, and career counseling.

In applying for grant funds under this section, local school systems shall provide evidence of how the external funding will be maximized to provide students with behavioral health and wraparound services. Evidence may include, if applicable, claims to health insurance plans for any covered health services.

8. Outreach to the broader school community to improve school safety, including heightening awareness of existing mental health services and other services.

Grant funds may be used to develop and implement outreach strategies, methods, mechanisms, materials, marketing efforts, community meetings/forums to the broader school community to improve school safety, including heightened awareness of existing mental health services and other services. In addition, grant funds may be used to acquire technology, software, and or apps to assist in outreach efforts as well as providing school safety training, to include exercises that test the school emergency plan, to the broader school community.

9. Providing information to students and parents on travelling safely to and from school, including data related to bus and pedestrian safety, strategies for ensuring personal safety, efforts of the local school system to improve safety, and information on available options for reporting incidents and concerns.

Grant funds may be used to develop and implement outreach strategies, methods, mechanisms, materials, and marketing efforts to inform students and parents what local school systems are doing in this area. In addition, grant funds may be used to acquire technology, software, and or apps that would assist local school systems in this area.

10. Assisting local school systems to improve and monitor traffic control measures in the immediate vicinity of schools to reduce the potential for pedestrian and vehicle accidents.

Grant funds may be used to acquire technology, software, and/or apps that would assist local school systems in this area as well as staff training. In addition, grant funds may be used to compensate law enforcement for enforcement efforts to address traffic safety violations occurring in the immediate vicinity of schools to reduce the potential for pedestrian and vehicle accidents.

All training and/or services shall be provided by trained professionals and/or subject matter experts. Training formats may include in-person training, webinars, seminars, discussion- and operational-based exercises, and use of technology-based training.

FUNDING AVAILABILITY

Funding for Grants offered by MCSS is provided by the State and is based on approval from the State Legislature and the Governor. The performance period for the FY2024 Safe Schools Fund grant is from **July 1, 2023 (start date) to December 31, 2024 (end date)**. Grant funds will be obligated by MCSS once a completed Notice of Grant Award is issued. Funds are paid on a reimbursable basis.

The Safe Schools Fund grant may supplement existing State and local funds for program activities but not replace those funds that have been appropriated for the same purpose.
